

BUILDING COMMUNITY

AREAA BUILD COMMUNITY DAY

Saturday, May 30, 2015
9:00 am to 3:00 pm

South Bay Resident

Be a part of AREAA's efforts in helping Asian families in need. We will be helping a Japanese military widow and Manzanar Survivor from World War II dealing with dementia and in hospice care and her live-in daughter & nephew who both have learning disabilities. They are all struggling together in the same home. Neither of them work due to their illness and disabilities thus making it difficult to help themselves. They need AREAA to help them re-build their main bathroom which is in desperate need to be repaired from the tile falling off the walls, window closed shut for ventilation and the flooring worn out. AREAA will also assist them in making other minor repairs in the smaller bathroom. In addition to making the home safer for this elderly widow we will install front and back porch railings paint the exterior of the house due to peeling paint and other minor safety structure repairs such as the porch beam replacement, electrical outlets replacements. It is important that we come together and help Asian families in need and share the warmth every family deserves.
